Terracotta Roof Tiles

—

Everlasting  
beauty  
and style

# Bristle Roofings terracotta roof tile collection proudly crafted by La Escandella

---

La Escandella terracotta roof tiles have developed a reputation for achieving the highest quality colours and finishes of any terracotta tile in the Australian market.

Not all roofing materials are created equal. Meticulously crafted from natural material and kiln fired to solidify their form, our terracotta roof tiles offer ever lasting beauty for your home.

Brought to you by

**La Escandella**  
ROOFING THE WORLD

# Beautiful products that last forever

—

Bristle Roofing is part of the Brickworks Building Products Group, one of Australia's largest building products companies, with a stable of leading brands dedicated to manufacturing innovative products for Australians and the world for over 100 years.

Product – Planum | Slate

# The Benefits

---

- 
- 1. Colour for Life Warranty**

Terracotta tiles (or ceramic) are produced using a high firing process that binds the colour applied to the tiles surface.
  - 2. Vast range of colours and profiles**

Bristile Roofing's terracotta roof tiles offer the most comprehensive range of colours and finishes available on the Australian market.
  - 3. Exceptional sound insulation**

Roof tiles reduce external noise by up to 25 decibels which is more than twice the noise reduction achieved by other commonly used roofing materials.
  - 4. Rust and corrosion free**

Roof tiles are rust and corrosion resistant which means they are suitable for installation in even the harshest coastal environments.
- 
- 5. Fire resistant**

Roof tiles are ideal for use in bush fire areas because they are non combustible.
  - 6. Low in embodied energy**

Testing shows that terracotta roof tiles are lower in embodied energy than a number of competing roofing products.
  - 7. Reduces cooling requirements**

Testing of similarly coloured roofing products shows that terracotta roof tiles can reflect more heat away from your home resulting in lower cooling requirements.
  - 8. 10 Year Warranty**

When you build with Bristile Roofing you build with confidence knowing that your roof is provided with a 10 Year Total Roof Warranty.
- 
- 9. Strong and durable**

Terracotta roof tiles must comply with strict quality standards and are actually stronger than standard concrete roof tiles.
  - 10. Safe to drink**

Water collected from a tiled roof is as safe to drink as water collected off most roofing materials.
  - 11. Re-usable and recyclable**

Terracotta roof tiles can be reused by moving them from one roof and installing them on another home without the need for further processing before re installation.
  - 12. Repair and replacement**

Because a tiled roof is composed of a large number of small pieces, damaged tiles can be removed and replaced with relative ease.

# Roof tiles to suit your style

Available in a variety of profiles and collection of colours, Bristile Roofing offers a range of options designed to suit your style.

---

## Extensive colour range

Roof tiles are ideal for use in bush fire areas because they are non combustible.

## Colour for life warranty

We use only the best quality terracotta raw materials for strong, long lasting colours that will stand the test of time.

## Profile choice

Distinctive styles to complement any project

- Planum (flat)
- Visum3 (flat)
- Curvado (rounded)
- Medio Curva (rounded)
- La Escandella Innova
- Vienna
- Marseille

## Kiln fired

To lock in colour for the life of the tile.

# Our Warranties

Bristile Roofing offers industry leading warranties from a name you can trust.

## Colour for Life Warranty

Terracotta Roof Tiles are offered with a Colour For Life Warranty. This means that the roof tile you buy is warranted to remain the same colour for the life of the product. No other commonly used roofing material such as concrete roof tiles or metal roofing can make claim.

## 10 Year Total Roof Warranty

All roofs installed by Bristile Roofing are offered with a 10 Year Total Roof Warranty. This warranty states that we guarantee the roof has been installed properly and that the roof tiles and all accessory products are guaranteed against defect for a period of 10 years\*.

## 50 Year Product Warranty

Selected Terracotta Roof Tiles are offered with a 50 Year Product Warranty which means the product is guaranteed to remain structurally sound and is free of manufacturing faults for a 50 year period.

## 100 Year Product Warranty

Selected Terracotta Roof Tiles are offered with a 100 Year Product Warranty which means the product is guaranteed to remain structurally sound and is free of manufacturing faults for a 100 year period.

Warranty	Warranty applies to product installed within 200m of breaking surf	Warranty applies to product installed within 500m of salt water	Warranty applies to colour longevity

## Curvado

The Curvado range captures a look of grandeur with a distinctively European style. Manufactured from the highest quality terracotta materials, the Curvado incorporates a modern interlocking design which replicates the traditional pan and cover tile that has been a hallmark of European and Mediterranean architecture for centuries.

## Medio Curva

Traditionally, this two piece tile, also referred to as 'Mission Barrel', was the most frequently used roof tile in Europe and particularly in Spanish colonial buildings in the new world. Today the Medio Curva tile is used in the construction of new homes, due to the beauty and wide variety of colours available, or on existing projects to restore historic roofs to their former beauty.

## Visum3

Featuring a truly revolutionary interlocking design, the Visum3 has been designed to replicate smaller slate and terracotta tiles. Introduced with a 20 year patent, the Visum3 provides an affordable alternative for those desiring a shingle roof. Featuring a slim 9mm nose, the Visum3 achieves ultra flat laying for the ultimate shingle and slate appearance.

# Technical Guide

– Creating a Roofing System

# 2

## Creating a Roofing System

The best combination of insulation and ventilation for your home is dependent on a number of factors including location, aspect, windows and much more. A Building Designer or Architect will be able to assess your particular situation and advise what's best for you.

### What's right for your home?

#### Sarking

- Reflects as much as 95% of heat away from the home.
- Acts as a barrier to dust.
- Provides bush fire protection.
- Is a secondary barrier to water run off.
- Reduces the need for heating and cooling devices
- Provides additional storm protection.

#### Insulation

- Significantly reduces heat transfer through the ceiling.
- Keeps your home cooler in summer and warmer in winter. Provides bush fire protection.
- Saves on heating and cooling energy costs.
- A cost effective way to improve your home's comfort.

#### Ventilation

- Eliminates the hot air from the roof space in summer to help your insulation work far more effectively.
- Expels damp air in winter which can affect building structures and the effectiveness of insulation.
- Decreases the heat load on ceiling ducted air conditioning.
- Reduced energy costs.
- An inexpensive way to further improve your home's comfort.
